BROADCLYST PARISH COUNCIL - GRANT SPEND REPORT OCTOBER 2020

GRANT: EDDC CORONAVIRUS COMMUNITY FOOD FUND
PURPOSE: BROADCLYST FOOD BANK
AMOUNT: £2,477

BACKGROUND

Broadclyst Parish Council activated its Emergency Plan on 16 March 2020 and as part of its response to the Coronavirus pandemic set up a Community Support Scheme to help residents of the parish of Broadclyst.

On 22nd April, the Clerk was made aware via the Broadclyst Fund of a spike in requests for help from people who are in food poverty; this is due to change in their financial circumstances because of the Covid-19 pandemic. The Broadclyst Fund had a low balance, so the length of time and the extent to which it can give cash grants was very limited, therefore it was not a sustainable or long-term solution for people in need.

On 23rd April, the Clerk contacted Exeter Food Bank and spoken with Mark Richardson, the Manager. By 27th April, the Broadclyst Food Bank was established as a satellite hub of EFB and made its first deliveries to families in food poverty. The operation soon expanded and sources food from Exeter Food Action, Tesco, and Co-Op, as well as working with the Cranbrook 'Grow, Eat, Do' project for ready meals when available. In July, the Broadclyst Food Bank expanded to take clients in neighbouring parishes.

CLIENT BASE

The criterion for the food bank is to give food to those food poverty – i.e. those with little or no food, or little or no money to buy food. The Food Bank has supported over 80 households since its inception, mainly families but also individuals. We have noted that there is no such thing as the 'typical' household, with people finding themselves in food poverty for a wide variety of reasons including changes in personal circumstances; furloughed wages not being enough to meet household bills; and delays processing Universal Credit changes.

Our findings are in line with statistics[1] released by the Trussell Trust for April 2020, which found 47.6% of people using food banks were referred due to their low income. (Trussell Trust, 2020)

[1] Summary findings on the impact of the Covid-19 crisis on food banks, June 2020. Trussell Trust.

DEMOGRAPHIC

We were initially expecting demand from the older sector of the community, however we soon realised that whilst they did indeed need practical support through the Community Support Scheme, their incomes/outgoings had not been impacted by the Covid-19 pandemic.

The current age breakdown of adults and children is shown below.

Household Structure

The chart to the right shows the household structure of clients.

A small family has up to 3 individuals, with 4+ persons being a large family.

Our data shows that 78% of households being supported by the Broadclyst Food Bank have children under the age of 16.

GRANT FUNDING

Broadclyst Parish Council secured grant funding from Devon County Council (£495), East Devon District Council (£2,477) and Tesco Community Fund (£500) to purchase additional items to support EFB's work, recognising that Exeter Food Bank is under unprecedented demand and households needed additional items to those supplied by the Food Bank.

The statistics and evidence of need (we have issued over 400 vouchers—1 voucher per household, regardless of occupancy—at the time of writing this report) supports the continuation of the Broadclyst satellite hub of the Exeter Food Bank for the immediate future. There is a danger that vulnerable clients will not be able to access vital supplies, or that by doing so compromises their health or incurs additional expense (i.e. one client used to catch a bus to the Food Bank and then have to pay for a taxi back to the parish as it was not possible to carry supplies and deal with small children on the bus).

Spend to Date

Grant funding has been used to purchase nappies/wet wipes, and kitchen/cleaning/laundry products. The Parish Council has funded the hire and equipment of a portacabin to use as a food bank and continues to fund its operational costs. The last of the EDDC grant has been spent in October; it has been used exclusively for shopping and a little volunteer mileage, with the Parish Council funding all staff time and mileage. A breakdown of spend is appended (October's sheet shows spend to date, with two more supermarket shops anticipated).

Projected Spend

Now established, the operational costs of the food bank are envisaged to stabilize. The Parish Council resolved to fund the hire of the portacabin for the remainder of the 2020/21 financial year and a stable volunteer base has taken over much of its day-to-day operation.

There is a need to continue to purchase additional items to support households in food poverty; bulk purchasing and supermarket basic brands help to minimise this, the average cost of which is £450 per calendar month.

Conclusion

Without having the resources or scope to carry out extensive analysis, or any idea how far the impact of the pandemic will extend, it seems reasonable to conclude that:

1. The Broadclyst Food Bank continues to be instrumental in supporting residents across and near the parish during the Covid-19 pandemic and associated impact on households;

2. Variables such as age, household structure, and location do not demonstrate any emerging patterns; it seems that the only common factor amongst food bank clients is that they are in food poverty due to changes in their circumstances as a result of the Covid-19 pandemic;

3. As various factors combine, including changes to employer's support packages, winter fuel costs, and an anticipated restructuring of company workforces, it seems reasonable to conclude that more people will find themselves in food poverty over the forthcoming months.

4. Additional funding will enable to continuance of the level of support.

This concludes my report.
Date of report: 16th October 2020
