

Welcome to the first Landowners Update.

OCTOBER 2017

What is going on ?

The Call for Land process has generated great interest amongst local landowners. We are in the somewhat laborious process of checking that all landowners have been informed and that all relevant plots of land have been identified. Some landowners live outside the Parish, and for some land, we are having to get details via the Land Registry – it all takes time.

What is next?

Once this has been finalised, individual one to one discussions with land owners and site visits will be scheduled. It is envisaged that this will not commence much before Easter 2018.

You will be sent a template which will be used for our discussion. You can share this template with your partners /developer; this would help us to have sufficient detail when we meet.

Delays?

YES delays are possible: The West End Of East Devon large Strategic Developments are - and will have - an influence on the Broadclyst Neighbourhoods Plans' progress and priorities. In order to keep landowners updated, including updates to the Call for Land work schedule, we will update you bi-monthly which will enable you to be kept in the loop. If anything arises in the meantime we will contact you.

Next update January 2018
