Subject: A DAA Community landing site in Bradninch & Hele

Lovely ladies - I have been asked by our Community First Responder to raise funds to create a Community landing site at the Youth Football Ground.

You may already have such a facility in your Parish.

I have been very successful in raising over half the funds needed so trying for a small TAP fund to top it off.

Do hope you can support our appeal?

The deadline is later September so with the summer recess things may be tight to get your Council resolution of support. Do hope you can help?

With all thanks

Attached is the draft TAP fund form and document from Toby Russell who is championing the creation of landing sites across Devon.
