

Tithebarn Link Road

Welcome to the 2nd issue of the Tithebarn Link Road Newsletter. This newsletter aims to keep you up to date with the progress on the project. We hope that you enjoy its content and find it useful.

A view of the northern end of the site

What is happening?

A reminder that Tithebarn Link Road comprises a new 600m highway with adjacent cycleways, footways and on street parking. This link road will connect the existing highway network north and south of the scheme, replacing Anning Drive which is a private road but is being used by the public under agreement between Devon County Council and Exeter Science Park.

Important Information

Anning Drive will be closed overnight at the south western end for the week commencing 14/08/2017 from 19:00-07:00. This is to allow us to install new drainage and ducting in the junction of Anning Drive and Honiton Road.

There will be a fully signposted diversion in place via Ambassador Drive and Monkerton. Pedestrian/cyclist access along Blackhorse Lane will not be affected.

Further information can be found at:
devon.cc/tithebarn

Latest Update

Most recently, the mainline drainage works are nearing completion and we are currently installing road gullies to feed into the new drainage systems. As well as this, E.ON have been progressing their district heating works up through the site.

In the next stage of the project we will be looking to complete the drainage works and commence with the road construction. Works are progressing on schedule and are due to be completed in Winter 2017/18. Talks are ongoing with Western Power about dropping the overhead cables and we hope to update you in future newsletters.

Installation of district heating

Get in touch:

If you have any concerns or queries don't hesitate to get in touch with the team. If you prefer a face to face chat then pop into our site offices just off Anning Drive.

We will aim to minimise disruption during the works through measures such as maintaining Blackhorse Lane cycleway. Local businesses will remain open as usual.
