

Deputy Clerks Report November 2023

1. Trim Trail Replacement at Broadclyst Play Park.

Report detail:

The trim trail in the play park in Broadclyst has come to the end of its life. It has not passed inspection. It has been in situ for roughly 15 years plus, well played with and very popular with children of all ages.

I have approached the following play equipment suppliers for a quote.

Creative Play – awaiting designs.

Sovereign Play - awaiting designs.

Dragon Play – Site visit scheduled.

Rhino Play - Site visit scheduled.

Recommendation to Council:

- i. that the Council agree a budget for the project and delegate to the Deputy Clerk to complete the project.
- ii. Or wait for all designs quotes to come back in, then pick a design and set a budget.

2. Basketball Court Upgrades

Report detail:

A group of Residents (teenagers) approached asking for upgrades to the Basketball court area on the recreation field. After a few emails, the Clerk and I met up with the young people to discuss options that would suit everyone.

We met up with Callum and his dad along with Mr. Crispin who is a PE Basketball teacher from the village. After discussing what would be suitable, we agreed that a non-adjustable hoop system would work best along with, if possible, extending the tarmacked area.

Callum explained that there is a real need for this upgrade. The basketball court area is well used after school by members of local teams who live in the parish. The proposed upgrades would be used by all children and would be a real community benefit for the children.

We looked at other possible locations to site the basketball court, but nothing was suitable. The option of putting a hoop at Clyst Vale was discussed but would not work due to access issues. The current location is preferred due to being in a central position, no cars, or other dangers.

I have asked for advice from Basketball England but despite two emails, I've had no response.

Two play companies have come out for site visits and will be submitting ideas to improve the area. Two more companies have been approached for site visits.

The tarmacked surface could be increased in size, this would require a company coming in to dig out the extended area and re-tarmacking the basketball area. A separate cost. I have approached a local tarmac company for a quote and heard nothing back.

Recommendation to council:

1. Set a budget for work to be carried out to increase the surface area, replace the backboard and net along with new line markings (can be done in-house) with delegation to the Deputy Clerk for the project.
2. Replace just the backboard and net and install new line markings. (can be done in-house)
3. Replace just the backboard and net.

3. Memorial & Replacement Bench

Report detail:

Vandals have recently damaged beyond repair the popular bench near Martinsfield Farm. The bench needs to be replaced. It is also proposed to buy a second bench with a memorial plaque on the bench. The location of the bench needs to be agreed with the farmer. The National Trust has given permission for the benches if the Council undertakes all the work and retains liability for the future maintenance of them.

Memorial plaques can be purchased from Amazon.

Quote 1. www.tdp.co.uk/product-category/commemorative-benches/

Made from recycled 100% plastic. Last longer and is easier to maintain. Suitable for all locations.

1200mm, Brown £330.24 excluding VAT + soft anchor kit £81.50 + Plaque £43.87 Total cost including VAT £521.67

1500mm, Brown £385.54 excluding VAT + soft anchor kit £65.20 + Plaque £43.87 Total cost including VAT £588.02

1800mm Brown £558.55 excluding VAT + soft anchor kit £65.20 + Plaque £43.87 Total cost Including VAT £683.93

Free delivery
