

1. Playground Yearly Maintenance

The roundabout cladding in Broadclyst Play Park has been replaced. This was the last section of this year's maintenance to be carried out by our playground contractor.

2. Height Barrier at Woodbury View

A resident of Woodbury View emailed the Council regarding the dangerous height barrier at the Woodbury view resident car park. It was leaning very low, which stopped vehicles from parking in the car park and the actual height barrier had rusted out which posed a danger to people.

We contacted EDDC and got no response after several emails. District Cllr Chamberlain was asked to help. The height barrier has now been removed but we are waiting to find out if the barrier will be replaced.

3. National Allotment Association Officer Forum

I attended the online allotment officer forum meeting at the end of September. A very helpful forum to discuss and share ideas about the management of allotments and any problems and potential solutions. The Allotment Association membership has just been renewed. We have just allocated a vacant plot after a resident gave up their plot at Hillside Gardens allotments. October inspections will be carried out later this month.

This concludes my report.
