PRODUCT	QUANTITY	TOTAL
 BazookaGoal Football Goals £99.99 Goal size: 4ft x 2.5ft Colour: Black/Black	– 20 + 🗑️	£1,999.80

Estimated total £1,999.80 GBP

Reasoning: With the changes the FA have introduced from the start of the new season in July 2026 All U6 and U7 football will change to a new 3v3 format instead of 5vs5.

This requirement means a significant change within the development phase for youth football.

Alongside these changes there is a significant investment in youth teams to bring on board more volunteer coaches, more DBS checks to support the smaller game format. We estimate this change will require an initial investment of £5k from the club to get up and running.

Goals & Equipment – 4K

DBS Checks, Safeguarding, First Aid Courses – 1K

Typically these age groups would play 5vs5 on two pitches using 7vs7 goals, the changes mean one standard pitch will now be divided into 4 pitches, utilising 8 goals for 12 players.

With the requirement likely meaning 6 pitches per age group, 12 goals and a requirement for them to be utilised across training and matches and varying age groups requiring them it is a significant investment to support the new FA Format. As we have applied to the football foundation for new 7vs7 goals within 12 months there is currently no additional funding available.
